FOUR POWER AGREEMENT IS FRAMED

WILL BE ANNOUNCED AT PLENARY SESSION OF CONFERENCE TODAY

Session Will be Held at 11 o'Clock This Morning—Decision to Hold Meeting is Reached Suddenly After Hughes Met With Delegation Spokesmen—Will Receive Reports

WASHINGTON, Dec. 9.—The four power agreement to govern conditions in the Pacific as a substitute for the Anglo-Japanese alliance will be announced at a plenary session of the Washington conference at 11 o'clock tomorrow. The question of naval ratios, it was said tonight, by some foreign delegation spokesmen, will not be taken up at the meeting at least directly, altho it is understood that its relation to the proposed agreement is held to be vital. Decision to hold the session was reached suddenly tonight at a meeting of the delegation spokesmen with Secretary Hughes, after the French acceptance of the proposal had been received from Paris. Previously it had been the plan to hold a meeting of the committee on far eastern questions at that hour.

UNITED STATES LABOR BOARD IN FEDERAL COURT

Made Defendant in Suit of Pennsylvania Railroad

CHICAGO, Dec. 9.—Buffeted about by the criticism of both railroad and railway workers for United States railroad labor board finally was haled into federal court more than a year and a half, today when it was made defendant in an injunction suit brought by the Pennsylvania railroad, which procured a temporary order from Judge C. M. Landis restraining the board from handing down a decision against the road in a shommen's controversy. Members of the board said they "welcomed the suit," as a means of settling many perplexing questions, which have been the subject of many three-cornered tilts between the transportation lines, the employees and the board.

SENATOR WATSON DECLARES WAR ON ARMY OFFICERS

Threatens to Slap Major George F. Cocheu

WASHINGTON, Dec. 9.—Threats by Senator Watson, Democrat, Georgia, to slap the face of an army officer setting within touch of his elbow threw the meeting of the senate committee investigating charges that American soldiers had been illegally hanged in France into an uproar today and brought a quick demand from Chairman Brandegee for a sergeant-at-arms to prevent any clash.

For a moment the utmost confusion prevailed. Above the din of shuffling feet as some women hurried toward the door, the voice of the chairman in stringent tones commanded the Georgia senator to sit down or retire from the room.

Major George F. Cocheu, attached to the general staff was the officer on whom Senator Watson launched his verbal attack. It happened near the close of a brief but turbulent meeting at which Senator Watson's charge that the committee at a secret session had prejudged the case was characterized by Senator Shields, Democrat, Tennessee, a member of the committee as untrue and wholly without foundation.

The senator's attack on Major Cocheu hit the committee like a crack of lightning. There had been no intimation that anything of the kind was impending. Major Cocheu had not testified and his friends said later, was present in his official capacity as chief of the executive branch of the general staff.

Suddenly swinging to his feet and shaking his right hand with in two feet of the major's face, the senator, his voice pitched high, exclaimed "that for two pennies I'd slap your jaws."

The officer did not bat an eye. Instantly Chairman Brandegee was on his feet calling for a sergeant at arms to protect the officer from "an insult." Then, declaring that he himself had been insulted, Senator Watson announced that he would retire from the meeting.

Taking hold of the situation, Senator Shields declared the committee desired to proceed in order and suggested to Senator Watson that he had not been insulted.

"We expected you to conduct yourself here in the same manner you want others to conduct themselves toward you," said Senator Shields.

Senator Is Hostile.

"An insult can be given by words," Senator Watson shot back, wheeling quickly again to face the officer.

"If he looks at me again that way, I'll slap his face. I won't sit here and be bullied by these fellows," by this he had jawed brandegee.

Chairman Brandegee and Senator Watson had a fiery exchange as to just what had been promised in keeping officers out of the room while any of the latter's witnesses were testifying.

Finally the chairman shouted to the Georgia senator asking if he wanted the officer sent away and on being informed that he did, they were told to get out.

After that things settled down a bit. Smiles came back to Senator Watson's face, as he explained that he wanted to beg the pardon of the committee, if he had acted in an unseemly manner. He added, however, that the officers sitting there and gazing at him in an insolent manner, had caused his southern blood.

The committee later decided to hear some army officers tomorrow and then adjourn the open sessions for a week so as to examine the mass of documents presented by Senator Watson. The senator announced that he had nothing at hand today but the committee agreed to summon anybody he felt could give evidence as to the illegal hangings.

SAVES DE VALERA'S OPPOSITION JUSTIFIED

Chicago, Dec. 9.—The opposition of Eamon DeValera to the British-Irish treaty is justified, Father Michael O'Flanagan, former vice-president of the Irish republic said in a statement here today.

BRIEFS

ST. JOSEPH, Mo., Dec. 9.—At the funeral of the wife of Jacob Seidel, a merchant here, today, a porch fell with the pall bearers and the mourners and 20 persons were injured. Several suffered broken limbs, but none are believed to be fatally injured.

ST. LOUIS, Dec. 9.—George V. Halliday, bankrupt broker and Harry Turner, editor of the semi-monthly publication Much Ado, were indicted tonight by the federal grand jury today on charges of forgery and counterfeiting in connection with the alleged counterfeiting of \$1,500,000 of interior receipts issued by J. P. Morgan & Co. for French government bonds.

GALESBURG, Ill., Dec. 9.—J. B. McMillan, of Monmouth, Ill., was found dead in his room at a local hotel this morning. It is thought death was due to drinking poison, as a vial containing some was found in the room. Financial worries was given as cause for the suicide.

DECATUR, Ga., Dec. 9.—Emanuel Brant, 59 years old, was burned to death some time Monday when his home twelve miles northeast of here, was destroyed by fire. Brant lived alone and was last seen Sunday night.

FORT MADISON, Ia., Dec. 9.—Two men who escaped from the state penitentiary are being sought today. They are James Davis, sentenced from Sioux City for murder and Ralph Lawshe, serving a sentence on a forgery charge. Authorities believe that Davis is headed for Chicago and have notified the authorities at that place to look out for him.

HOUSTON, Texas, Dec. 9.—More than 2,500 new members were taken into the Ku Klux Klan of Houston at a special initiation ceremony here held on an open air platform last night. It was estimated that between 5,000 and 6,000 Ku Klux Klansmen garbed in white regalia were on hand for the ceremony, which lasted three hours.

OMAHA, Neb., Dec. 9.—Police last night arrested a man whose name was given as Mike Stine, a suspect in connection with the Wall street explosion, Sept. 15, 1929, when a large number of persons were killed. An unnamed communication, to the police led to the arrest.

CHICAGO, Dec. 9.—While Policemen James Ammons and Watchman Eugene Marcus were exchanging shots early today, each believing the other a burglar, the real thief, William Kelley, however, fell down and fractured his skull and was caught by another policeman. Ammons and Marcus each had a bullet wound in the right arm.

RICHMOND, Va., Dec. 9.—Dr. Wilmar Amos Hadley, former army surgeon and ranchman, was put to death in the electric chair today for the murder of his wife, Mrs. Sue Tinley Hadley, in November, 1918. Prison attendants declared Hadley went to his death calmly.

CLINTON, Ia., Dec. 9.—Choosing to let every man work four days a week, instead of having some men laid off, the machine, blacksmiths, sheet metal workers, electricians and carpenters at the Northwestern railroad shops here began a reduced schedule today under a new order in which the men were given their choice. Had the men voted otherwise, almost half of the crew would have been laid off.

GERMANY CONTROLS AMERICAN POTASH

NEW YORK, Dec. 9.—Germany has seized control of the American potash market virtually wiping out all American competitors, in the first important clash of the "new control war," Dr. John E. Teslie, president of the New York section of the American Chemical Society declared tonight in an address at the Chemist club. The new potash industry in America, he declared, was betrayed by 34 American distributing companies, which he named.

The companies, he said, had signed secret contracts which eliminated all possibility of competition with the German monopoly.

FOUR THIEVES WILL BE SENT TO SIOUX CITY, IA.

St. Paul, Minn., Dec. 9.—Extradition papers authorizing the return to Sioux City, Iowa of William Hildebrand, Albert Kennedy and Jacob Lane, on charges of theft of \$10,000 of furs from the August Williges store in Sioux City on November 7, were honored at the office of Governor J. A. O. Preus today.

FRANCE IS DOING NOTHING WITH HER NAVY VIVIANI SAYS

Provisions Have Been Made But Not Carried Out

WASHINGTON, Dec. 9.—France is doing nothing in the matter of increasing her navy which is in opposition to the principles proposed by the Washington conference, M. Viviani, head of the French delegation said tonight. Parliament, a year ago, he added, made provision for replacement and repair work after the war but there was no expansion such as was provided for. In an interview he said: "Certain American newspapers have expressed some surprise at the information wired from Paris respecting the vote for the French navy. Public attention has been particularly called to the fact that the personnel of the navy will be increased from 51,000 to 57,000 men."

The decision to increase the personnel of the fleet to this extent, M. Viviani said was taken a year ago and consequently long before the Washington conference was called.

"France has not built anything during the war either to complete her naval program or for the maintenance of her fleet," he said, "but all units which have been taken part in the war and especially the smaller units have suffered considerably from wear and tear. They must be replaced unless the flag of the French navy is to disappear altogether from the seas. That is the reason why no constructions have been undertaken since the armistice. France is obliged to begin carrying out a very limited program that has been passed by parliament to put the fleet in a proper state of repair only as regards very small units."

"This program was submitted to parliament more than a year ago. There is, therefore, absolutely nothing in what is being done at present that is in opposition to the principles proposed to the Washington conference."

ARGUMENTS ARE CLOSED IN GAS CASES FRIDAY

West Virginia Case Rests With Supreme Court.

(By The Associated Press)

WASHINGTON, Dec. 9.—Oral arguments were closed today in the supreme court in the cases brought by the states of Ohio and Pennsylvania to restrain the enforcement of a statute by which West Virginia proposes to empower its utility commission to regulate the exportation of natural gas from that state.

Counsel for Ohio and Pennsylvania contended that it was the purpose of West Virginia to shut off the supply of gas required for the welfare and comfort of six million people in 650 cities and towns in their states, Kentucky, Indiana and Maryland. They challenged the constitutional power of the state to interfere with public corporations whose duties were as great to their consumers outside West Virginia, they asserted as to those within that state.

West Virginia counsel in the argument declared that the business of which the two states are apprehensive would be interfered with was not interstate until after it crossed the state line and was therefore subject while within the state to regulation by the state.

MAN FOUND DEAD IN AUTO MAKES PUZZLING CASE

Farmer Near Danville Found With Bullet Hole Thru Head

(By The Associated Press)

DANVILLE, Ill., Dec. 9.—Discovery by a farmer this morning of the dead body of John Flarey with a bullet hole in his head sitting upright in his automobile, near Scotland, Edgar county, furnishes a mystery which the authorities of Edgar and Vermilion counties are trying to solve. Flarey, who conducted a small store at Bunsonville, a small mining settlement near Georgetown, ten miles south of Danville, lived in Georgetown.

The automobile was in the ditch beside the road. There was no blood on the seat or other parts of the car. In the soft ground near it were found the tracks of a man and woman and in the car was a jug containing a half gallon of "white wine."

Finding of the tracks caused the officers to believe he had visited towns just across the Indiana line where bootleggers thrive, and after leaving, quarrelled with the man over the woman and was slain by one of them.

Careful inspection of the road for several miles east of the spot where he was found revealed no signs of a struggle, however.

R. R. STOCKHOLDERS APPEAL TO COURT TO HOLD UP SALE

Seek to Prevent Delivery of Coal Company Stock.

(By The Associated Press)

PHILADELPHIA, Dec. 9.—Two stockholders of the Central Railroad Company of New Jersey today asked the United States district court to hold up the sale of the 169,788 shares of the Lehigh & Wilkesbarre Coal company stock owned by the Jersey Central.

The Reynolds syndicate, which owns the stock, is offering it for \$31,410,780, and to order the sale of the stock to the Franklin Security corporation, whose bid, the petitioners claim, exceeded the Reynolds offer by at least \$2,000,000.

The petition was filed by the Continental Insurance company and the Fidelity Phenix Fire Insurance company, both of New York.

The petition avers that the proposed sale to the Reynolds syndicate is a fraud on the rights of the stockholders of the Jersey Central and asserts that some of the members of the Reynolds syndicate are directly or indirectly interested in the Jersey Central and are therefore not qualified to subscribe to the stock.

TOM SLAUGHTER'S CAREER COMES TO END

LITTLE ROCK, Ark., Dec. 9.—Tom Slaughter, desperado, came to the end of his long career of crime tonight in the fastness of the Saline county hills. He was shot from behind by one of the white men whom he led to liberty from the state penitentiary this morning.

The report of Slaughter's death was confirmed late tonight by Sheriff J. C. Crow of Saline county, leader of one of the posse on the killer's trail.

Not only is Slaughter dead, but one of the five negroes who fled the prison with him in the spectacular escape this morning, is dying in the hills besides the bandit's body, while the white companion, who shot him down, from behind, and the three negroes are in custody.

The man who killed Slaughter, J. C. Howard, who was serving a three-year term for forgery, is quoted as saying:

"I left with him with the intention of killing him the first chance I got."

Washington, Dec. 9.—Declaring that girls now admitted to the Florence Crittenden Homes are at the average of 16 years as compared with an average of 23 years a few years ago, Mrs. Kate Waller Barrett, national president of that organization declared today at a meeting of the International Reform Bureau that "the facts have almost forced me to the point of questioning whether women are better guardians of morals than men."

FEDERAL AND STATE AUTHORITIES UNITE TO STOP VIOLENCE

Four Mediators are Appointed to Try to Restore Order and Bring Strike to Close—Three Thousand Strikers Parade in Kansas City—Quiet Prevails in Other Cities

(By The Associated Press)

CHICAGO, Dec. 9.—Federal and state authorities combined today to stop violence in connection with the stock yards strike.

Four mediators—two from the United States department of labor and two representing the Illinois Industrial Commission—were sent into the stock yards district to try to restore order and bring the strike differences to deliberation between the packers and strikers.

Ernest Withall, chairman of the state committee, said that official recognition of conditions should bring an end to the clashes between strike sympathizers, workers and police when the federal and state agents get among the strikers.

Oscar F. Nelson and B. M. Marshman, United States commissioners of conciliation with two representatives of the state carried the government plans for truce into the yards today.

There was virtually no disorder in any of the packing centers during the day. In Chicago, where there was bloodshed yesterday and the day before, there were only minor disturbances. To prevent further disorders, union officials today issued orders that the strikers were to keep out of the local stock yards, unless especially sent there by the leaders.

In Kansas City, 3,000 strikers paraded today, while at Omaha a packing company in a letter to its employees, urged them to organize with their employers "on a fifty-fifty basis."

The ranks of the strikers were increased here during the day by several hundred men from other unions and reports were that arrangements were being made for a general strike in the yards to start within a few days.

Throughout the evening occasional outbursts of fighting continued in the Chicago stock yards although at no time did the disorders approach even a near riot stage. Several policemen were stoned as were the houses of strike sympathizers but in most cases the attackers were small groups, the police managing to keep the men from forming in large crowds.

Chief of Police Charles Fitzmorris again assumed personal command of the stock yards district and continued to patrol it with every policeman for who would be spared from the other sections of the city.

One man was stabbed in a saloon fight and his condition was said to be critical.

UNCOVER COUNTERFEIT REVENUE STAMPS

Chicago, Dec. 9.—About 10,000 alleged counterfeit revenue stamps were seized in a raid on a printing shop here late Wednesday night in which thousands of fraudulent whiskey and gin bottle labels were confiscated. It was revealed here tonight by James B. Shelhorse, in charge of the United States secret service bureau here, Five men and a woman have been arrested charged with counterfeiting.

According to Shelhorse, who took statements from the prisoners, many of the stickers have been sold to bootleggers in New York, Kansas City, Detroit, Pittsburgh, Chicago and Cleveland. He declared the stamps indicated that the prisoners' earnings would reach at least \$50,000.

KLEIN CASE GOES TO JURY FRIDAY

Wheaton, Ill., Dec. 9.—The case of Jacob Klein, accused of the slaying of Leo Neumann, was given to the jury this afternoon after the day had been spent in arguments by attorneys for the state and defense.

The case for about two hours the jury was unable to reach a verdict and further deliberations were suspended until tomorrow morning.

Klein, a deputy sheriff, shot Neumann, a motorist, after ordering him to stop. Klein asserted that Neumann was speeding but said he had shot in the air not intending to hit Neumann.

CHILD IS BURNED TO DEATH AT HERRIN

OFFICIALS ARE INTERESTED IN RATIFICATION

Wonder What Dail Eireann Will Do When it Meets

(By The Associated Press)

LONDON, Dec. 9.—Officials in both London and Dublin were occupied today mainly in canvassing the prospects for ratification of the Anglo-Irish treaty when it comes before the meeting of the Dail Eireann next Wednesday.

The balance of opinion in both cities appeared to be that Arthur Griffith as sponsor of the treaty, will obtain an effective majority altho it was admitted here that Mr. DeValera possesses a strong following and that the voting therefore may be very close. If Mr. DeValera should be defeated in his fight against ratification it is thought here that he may resign his position as head of the Sinn Fein.

Should matters develop into taking a plebiscite of the Irish people, it is thought there would not be the slightest doubt of a great majority in favor of the treaty.

In the house of lords next Wednesday, Viscount Moreley one of the oldest and strongest advocates of Irish home rule will make the motion for ratification. The motion will be seconded by Earl Dunraven who for many years has advocated a dominion settlement for Ireland.

Prime Minister Lloyd George and Sir James Craig of Ulster held a long conference today which was participated in at various times by other ministers, including Lord Chancellor Birkenhead, Austen Chamberlain and Winston Spencer Churchill.

It was supposed that the conference had to do largely with matters of finance.

ALLEGED AUTO THIEF SURRENDERS TO POLICE

MATTOON, Ill., Dec. 9.—Corda De Long, paralyzed from the waist down as a result of his service overseas, was surrendered to the police here today, after a week's disappearance, following his arrest on a charge of auto theft. De Long is alleged by the police to be the leader of a band of automobile thieves operating out of Mattoon, six of whom have already been arrested.

Under the law real estate agents must pay a license fee. Some of them are objecting to this expense but there is comfort for them in the thought that an occupational tax is already in force in a great many Illinois cities, and the real estate men are not therefore much worse off in this regard than are men engaged in other lines of business.

Judge Fitzhenry of the district federal court believes that children in the public schools should be taught the federal constitution. It might prove a difficult task for some of the boys and girls, but certainly a lasting impression would be given, and there is the fact that the average adult has only a very hazy idea of what the constitution of his country includes. Judge Fitzhenry's point is well taken.

The movie men in talking about Postmaster Hayes as the head of the new film production organization at a salary of \$100,000 a year, are seemingly trying to out-do the baseball magnates and their arrangements with Supreme Commissioner Judge Landis.

There is no denying that the movies give too much glory to bandits and holdup men. But wide publicity to happenings like that in the Cass county jail, when the sheriff shot and killed one man and wounded another, would offset some of the glamor which sometimes surrounded the bandit.

ROTARIANS HEARD TWO FINE ADDRESSES

H. H. Schroder of State Normal and Col. O. C. Smith of State School for Deaf Speak to Rotarians at Regular Luncheon, Friday

Rotarians at the luncheon Friday at the Pacific hotel, heard H. H. Schroder, of the Illinois State Normal and Col. O. C. Smith, managing officer of the State School for the Deaf, made addresses. Both speakers laid emphasis upon the importance of education, their remarks having appropriate reference to educational week designated by the American Legion and the National Educational association.

The club also heard words of greeting from J. H. McLaughlin, a representative of the American City bureau. Other guests of the day were Judge E. S. Smith and George Metcalf.

President Riley announced the appointment of L. G. Magill, W. H. DeShara and Lloyd Hamilton, as members of the Christmas basket committee. It will be the function of this committee to secure the names of families where Christmas baskets will be acceptable. A family will then be assigned to each Rotarian.

Value of Education

Mr. Schroder spoke first of the significance of education from the standpoint of the parent, and referred to the interest that parents have in the education of their children because of the knowledge that such education must come if children are to get anything out of life. Then he went on to show that education pays, even from a mercenary motive, because as a general fact ignorance breeds crime and today crime costs society more than does education. Then he laid emphasis upon the thought that material values are really based upon the spiritual. A man may have possessions in some far-away area but the value of these possessions comes along with civilization. Then he said that the American Legion realizes that armament only prepares for defense against the enemies from without while it is education that furnishes defense for the enemies from within.

Refreshments were served by Mrs. Louis Ward, the hostess. The next meeting will be held at the church, Jan. 6, with Mrs. Lizzie Pix, Mrs. E. E. Hart and Mrs. E. L. Stice as the hostesses.

Mr. and Mrs. Scott Holmes Gave Oyster Supper
Friends and relatives were entertained last night at the home of Mr. and Mrs. Scott Holmes, a few miles west of Jacksonville. An oyster supper for which generous arrangements had been made was served and then came several social hours. During a part of the evening, a number of the men in the company enjoyed a coon hunt. There was a full equipment of dogs and guns but the hunt did not result in the round-up of any of the animals sought.

The Misses Lukeman Entertained Friday Evening
Misses Elsie and Elsie Lukeman were hostesses of a delightful party at their home east of the city Thursday evening. Nine couples drove out to their house and spent an evening of dancing and a general good time. Delicious refreshments were served. The guest list included Misses Louise Kenner, Henrietta Gruber, Cecelia Maloney, Lucille Kennedy, Elsie Kennedy and Margaret Kelly, all seniors at Routh college, and Curtis Williamson, Jendy Wolfe, Marvin Fitzgerald, Edward Mandeville, Raymond Zell, George Ketterling, Charles Carson, Albert Gebert and John Zell.

Golden Wedding Anniversary Observed
The golden anniversary of the marriage of Mr. and Mrs. A. M. Calhoun of Franklin was celebrated recently with a family reunion and dinner party. Among the guests were Mrs. David Houser, of Palmyra and D. T. Calhoun of Palmyra and "Stood up" with Mr. and Mrs. Calhoun when they were married at the home of the bride's father, T. C. Turner, near Athensville, in 1871.

They began housekeeping on a farm in Macoupin county and later moved to Hart's Prairie and then to a farm two miles south of Franklin where they lived for 38 years. They have nine children living and nineteen grandchildren who are many of them residents of this community.

Mr. and Mrs. Calhoun received many lovely presents and good wishes from their large circle of friends.

Grace Epworth League Host to Sister Organizations.
About 150 young people of the various Epworth League societies met last night at Grace church, (the occasion being an old fashioned box supper.

The attendance represented league associations from the churches of Grace, Centenary, Brooklyn, Durbin and Ebenezer. Prizes were given to the best old-fashioned costume worn by boy or girl. Edmond Dinwiddie of Ebenezer was awarded the prize for boys, and Miss Agnes Davis of Grace league was given the prize for girls.

Several "community" boxes were put up by the girls and purchased by the young men. A considerable sum was added to the league by this source.

Miss Lucille Straight was general chairman of the entertainment and was assisted by several others.

Ordain Fox auctioneered the lunch boxes.

A whole quartet from Illinois Women's college rendered delightful music.

The evening closed with games.

"The Good Samaritan" brought up to date, and "Fortunas," two interesting films, at Westminster church Sunday night. Dr. Smith will preach. All are invited.

DIVORCE SUITS HEARD IN CIRCUIT COURT

Court Room Crowded Friday Because of Hearing of Divorce Suits—Several Docket Entries Made During Day.

Judge E. S. Smith's court was crowded Friday because of the hearing of two divorce proceedings. The testimony in both cases evidently interested the men and women who thronged the court room, as many of them remained thruout the entire day.

The jury which heard the evidence in the divorce suit of Ada Jane Stice against Burley Stice found in favor of Mr. Stice. The jury in this case included Charles Caldwell, Felix Shanley, W. A. Schmitt, Amos McCurley, Wesley Coumbes, Alfie Mayes, J. W. Mallen, Walter Hardy, C. A. Rowe, Joseph Peters, Y. Y. Funk and Jesse Henry.

The divorce suit of Henry A. Maddox against Blanche M. Maddox was called for trial. In this suit Mr. Maddox is seeking divorce from his wife on the ground of infidelity. In the present hearing Mrs. Maddox denies the allegations of misconduct against her and accuses her husband with impropriety. The complaint in the case is represented by Wilson & Butler and Mrs. Maddox has William N. Hargrove as her attorney.

The jury in this case are Clarence Wolke, George Fanning, Arthur Kehl, Charles A. Hall, Jesse Henry, Y. Y. Funk, Walter Hardy, Wesley Coumbes, W. A. Schmitt, Alfie Mayes, Joseph Peters and Felix Shanley.

In the suit of Jacob Strawn vs. C. N. Priest, motion was made by the defendant to set aside the verdict and for a new trial.

Chancery.
In the divorce suit of Irene Dover vs. Harvey C. Dover, the cause was heard and decree rendered.

In the partition suit of George M. Mader vs. City of Waverly, report was filed and approved and decree was rendered for partition and appointing of commissioners.

In the partition suit of John H. Wilker, et al., vs. Ella Kupper, the report of commissioners was filed and approved and decree for partition and sale entered.

RECEIVES WORD OF RELATIVE'S DEATH

Mrs. C. S. Burdick, 1034 Dayton street, received word yesterday of the death of her daughter-in-law, Mrs. John D. Burdick, which occurred at a hospital in Chicago, Saturday morning.

Mrs. Burdick was a sufferer from cancer and submitted to an operation about a month ago, but it did not give relief. Decedent was forty-three years of age at the time of death.

She is survived by her husband and three children, Evelyn, John D. Jr., and Helen Carol. Funeral services probably will be held in Chicago this afternoon with interment in Rose Hill cemetery.

Representative of American City Bureau Says Local Organization Is Doing Fine Work—Reports Made for Various Activities.

J. H. McLaughlin, representing the American City Bureau, met with directors of the Chamber of Commerce. Mr. McLaughlin is here to look over the work of the organization as a part of the fulfillment of the contract with the bureau. It was his pleasure to tell the directors and Secretary Welch last night that the Chamber of Commerce work here is in very healthy condition, considerably above the average rate at a date six months after organization.

Mr. McLaughlin made it clear that he was not merely seeking to laud "good fellows" and to say kind words but pointed to facts here and elsewhere in substantiation of the compliments that he was pleased to pay.

Reports Are Made.
The directors' meeting was presided over by Chairman Rowe and was held Friday night instead of Thursday of this week because of Mr. McLaughlin's presence. Report was made by Secretary Welch with reference to boulevard lights, indicating that the work is well under way and some of the brackets have already been received. Informal report was made with reference to the room project and it is the wish of the directors that it be impressed upon the public that there has been and is a rest room in connection with the Chamber of Commerce headquarters where all visitors, men and women, are very welcome.

It was reported for the Morgan County Good Roads association that the Jacksonville-Alton trail has now been marked practically thru the county and the work will be concluded at an early date. For the trade extension committee some explanation was made of the Christmas decoration plan and samples were shown of the decorations which will be used all thru the business district.

Secretary Welch reported that members of the committee on gas and electricity will visit Hannibal at an early date to acquire some first hand information concerning the operation of the municipally owned plant there and the charges made for service.

Urges Hospital Work.
A resolution was read, which has been forwarded to the proper state department, asking that everything possible be done to hurry forward the construction of the cottages at Jacksonville State hospital here for the use of ex-service men who are taking vocational training work.

The house committee presented a statement from the local building and loan association, indicating that a special effort is to be made early in the coming year to sell additional quantities of shares of stock and thus make available funds for some of the various applications that are being constantly received for loans on residences which the borrowers hope to build.

Some other matters were considered and then came a conference between Mr. McLaughlin and the directors at which a number of matters relating to the welfare of the organization were discussed.

CHESTERFIELD HIGH

Take Visitors Into Camp By Score of 22 to 8—Franklin Outclassed Chesterfield at All Points of the Game.

Franklin, Dec. 9.—Franklin high won from Chesterfield high tonight by a score of 22 to 8. The visitors were outclassed and there was never a time when the result was in doubt after the first few minutes of play.

Seymour, the star of the Franklin team did not go into the game until the last quarter, but he registered four field baskets and one free throw before the final whistle sounded. Dams, Robinson, Ewing and Murchey scored the visitors' points. However, the close guarding of Smith and Bland wade scoring difficult. Reed, Wiley and Smith were other players who scored for Franklin besides Seymour.

Coach Hufford's Five Wins Opening Game of Season—Play Meredosia this Evening

Waverly, Dec. 9.—Waverly high defeated Pawnee high in the opening basketball game of the season here tonight by a score of 19 to 16.

Coach Hufford started his first team and at the end of the first quarter they had the visitors beaten 11 to 3. Hufford then sent in an entire new team and then another bunch of subs and Pawnee managed to get into the lead. The first squad went back into the game at the beginning of the second half and pulled the lead.

Harrison and Mills starred for the Waverly team while Clayton and Golightly did stellar work for Pawnee.

REFUSE TO DECLARE
LOMBARD CHAMPION

Illinois Intercollegiate Athletic Conference Votes Down Motion to Award School Football Title—Not Action of Ineligibles.

Bloomington, Ill., Dec. 9.—At the meeting of the Illinois Intercollegiate Athletic Conference held here today, Lake Forest was admitted to membership. The conference track meet will be held at Monmouth, May 26-27 and the tennis and golf tournaments will be held in Galesburg on the same dates. No one cared to discuss the annual basketball tournament, the consensus of opinion being that this is an event of the past.

There were two claimants for the baseball championship, St. Viators and Monmouth, while Knox was also given some consideration. It was decided that the championship was not awarded. There was only one claimant for the football championship, Lombard College, but a motion to award the championship to that school was lost.

The eligibility of Cecil Adams Abrams, Millikin player who has played football five years in the S. A. T. C., year, was called into question. The conference decided that he was not ineligible. There was also a question about the eligibility of Gottschalk of Wesleyan who played basketball on the Bloomington Pans team. No charge was made against this man but the eligibility committee was asked to draw up a rule governing similar cases.

Coach Wann made charges against Roy Lamb, Alvin Thompson and Cecil King, three members of the Lombard team. These men had transferred to Lombard from other institutions where they had failed to carry the required twelve semesters of work. S. J. Winters of Lombard declared that these men had made up their work at Lombard before coming.

There was no decision made in the case of these three, but the conference voted that players to be eligible must carry twelve semester hours work in the school he attends during the semester; any work in which he is conditioned must be made up in the school in which he receives that condition. The understanding was that he could not become eligible by taking examinations in other schools to which he transferred.

There were other rule interpretations made and the coaches did much toward the completion of their basketball and football schedules for 1922.

A number of baseball games were also arranged.

KNIGHTS LOST TO
VIRGINIA TEAM

Local Tossers are Defeated in the Final Minutes of Play—Zell and Wankel Star.

The Knights of Columbus lost their first basketball game of the season in Liberty hall Friday evening to the Virginia Independents, the final score being 29 to 18.

The game went along on pretty even terms until the final minutes of play when the visitors started on a rampage and ran away with the game.

Zell was the chief point maker for the Knights and Wankel made the most points for Virginia. Each scored seven field baskets.

ILLINOIS WILL PLAY
LINCOLN COLLEGE

Blue and White Five Get into Action Tonight for First Time This Season—Game Starts at 7:45 o'clock.

Illinois College will tilt the lid on the basketball season in Jacksonville tonight at David Pryor Gym when the Lincoln college five will be here for a game.

Illinois has only been practicing a short time as a number of the men were on the football team and Coach Harmon wanted them to rest a short time before starting in at basketball.

Lincoln had a strong aggregation last year and it should be stronger this year. The team has every man back that played last year and some of them have played three years. They also have been practicing longer and probably will have an edge on Illinois in condition.

Coach Harmon will have two complete lives in readiness for the fray. He will start Antrobus and Farrell as forwards, Mellon, center, Cully and Burrus, guards. For reserves he will have Harney and McConnell, forwards, Dale, center, Jones and Struck, guards. Lincoln defeated Eureka College at Lincoln last night by a score of 29 to 21.

On account of Lincoln having to catch the evening Wabash train for Springfield in order to get home Saturday night, the game will start promptly at 7:45 o'clock. Howard Millard of Illinois Wesleyan, sports writer for the Decatur Review, will referee.

ROUTT HIGH LOSES
TO ST. JOSEPH TEAM

Springfield Aggregation Defeats Locals 21 to 11—Game Was Fast and Hard Fought.

Route high school lost to the St. Joseph team at Springfield last night by a score of 21 to 11.

The game was a fast one and hard fought from the first to the last whistle. Routt men did not have their eye on the basket last night and this lost them the game. The St. Joseph team played consistently and this finally gave them the victory. The score:

"UNCLE JOE'S LINCOLN"

Years ago in a village in what is now Czech-Slovakia, "Uncle Joe," an ex-Union soldier, told a group of boys the story of Abraham Lincoln.

The story was filled with a patriot's love for a great and courageous soul, who was willing to suffer that his country might endure in honor and unity. And when the fourth of July came, that same group of boys tried to celebrate the day in as nearly an American fashion as they could.

One of those boys was Edward A. Steiner. From that day, he has carried in his heart, the ideal of Lincoln and the ideals of American democracy. His latest book bears the title, "Uncle Joe's Lincoln," and tells the story of the above mentioned incident.

Dr. Steiner will lecture for the Woman's club this afternoon, at 3 o'clock. His subject, "The Mind of Europe," is so timely that the club will open its meeting to anyone, not a member, who wishes to purchase a guest ticket at either Brown's music store, or at the door.

The meeting will be held in the Music hall of the Illinois Woman's college.

Miss Margaret Ring of Murrayville is a guest at the home of Miss Opal Forman on East State street.

CHICAGO LIVE STOCK
EXCHANGE BULLETIN

A general packing house labor strike adversely affected live stock trade this week. At Chicago labor conditions were better than elsewhere, but several days must elapse before conditions become normal. Some local plants operating at full capacity and owing to current unemployment plenty of substitute labor is available. Until industrial conditions become normal conservative marketing is advised.

Cattle trade usually goes on a new basis at this season, as the old crop of long-fed bullocks has been practically cleaned up. This will eliminate the lumpy quotations made by a few choice loads each week recently and narrow the spread. A few choice heavy steers are selling at \$9.25 to \$10 per cwt., and some prime yearlings up to \$11.50, but the \$7 to \$8.50 kinds are in a majority. Killers are getting access to more short-fed bullocks than they can conveniently handle, but there is a dearth of prime light and handy weight steers suited to holiday trade.

It is evident that short-fed cattle are to be crowded on to the market right along as holders are nervous despite abundance of cheap feed, insuring low cost gains. The market has not acted in an encouraging manner, but it must be remembered, that this is the season of maximum poultry consumption always at this period killers concentrate on finished cattle. Dearth of that kind is suggestive of a result of recent liquidation indicating that the trade is running into a period when the cattle will be an exception, short-fed the rule. Much of the stuff now being unloaded is barely in good feeder flesh which is not the usual policy of the country when fed is cheap.

Unsatisfactory industrial conditions still restrict beef consumption. This is one reason why warmed-up cattle are not in demand. The winter market will be determined largely by the purchasing capacity of the industrial element, now somewhat seriously impaired. As the season works along cattle condition will improve and it is possible that after the crop works into strong hands selling conditions will also pick up. At present it is a case of almost constant saturation relieved by occasional short runs when killers promptly admit their needs. Late last week this happened, prices making substantial gains, but there were too many cattle around the market circle early this week with the usual result, killers dictating terms.

The stock cattle movement is still restricted in volume and of restricted weight and as the season of easy picking has passed values are advancing. It is probable that as the winter works along feeders may find themselves in competition with killers on warmed-up steers, especially if the fat cattle market picks up which by no means is unlikely. While the season's movement of stockers and feeders is numerically about as strong as a year ago deficiency in weight has been marked and as many little cattle has been taken for summer grazing purposes present saturation of the fat cattle market may be relieved after the turn of the year, especially if something develops to inspire feeders with confidence.

Breeding stock is advancing all over the West, largely as a result of loans by the War Finance Corporation. Both cows and ewes are selling considerably higher than a few weeks past. While little War Finance Corporation money has gone into the cornbelt, disbursement of its funds in the West has exerted a healthy influence, not only by arresting liquidation but making possible a start with the process of restocking depleted herds and flocks. It marks a turn in the long road and a turn for the better.

In the Mississippi Valley farmers have not taken full advantage of War Finance Corporation assistance. Gov. McCray, of Indiana, chairman of the cornbelt advisory board urges them to make immediate application for loans to carry corn. Complaint has been made concerning red tape, but McCray asserts that this has been magnified. The Bankers' Pool, organized last June with a fifty-million dollar fund to finance live stock with M. L. McClure in charge, has suspended operations after making loans aggregating \$20,000,000 as the War Finance Corporation is in position to make lower rates on live stock loans. Farmers desiring loans should consult their bankers regarding correct procedure.

Free buying of hogs on outside account has been a price sustaining influence. Last week's average price at Chicago was \$6.86 per cwt., average weight 226 pounds. On Monday with a run

of 48,000 shippers took 24,000 or half the supply indicating healthy competition. This outside demand has repressed bearish sentiment, an opinion having developed that if it is a criterion of what is to happen during the process of marketing the new crop the depreciation has about run its course. The season is here when killers must accumulate product for summer merchandising as they cannot do business with empty cellars. Exports of lard are being well maintained, \$15.45, 452,000 pounds of that commodity having gone across the Atlantic last week compared with 4,777,000 pounds a year ago and Europe is buying bacon freely. Last week's exports having been 20,250,000 pounds against 7,999,000 a year ago. When this volume is possible under present exchange conditions it is easy to conceive possibilities should that handicap be even partly removed. Domestic consumption of both bacon and fresh pork is heavy as is attested by keen competition from smaller killers for a large slice of the daily hog supply.

Lamb feeders are getting a substantial reward, good to choice lambs having advanced to a \$10 to \$10.75 basis. The visible winter supply is deficient, competition between packers and eastern butchers is keen and if the crop is marketed conservatively it will be a profitable season. The condition of the dressed lamb market is in striking contrast to fresh beef trade; probably because lamb eaters constitute a class less concerned about cost than the rank and file of beef eaters.

Wool market prospects are encouraging. Stocks are being reduced, foreign markets are healthy, consumers are again in the clothing market and both medium and low grades, recently unsaleable are in demand. The big stock accumulated by the United States Government during the period of war control has been practically eliminated as a factor and it is a reasonable assumption that by the time the 1922 clip is ready to leave the sheep's back the market will be in condition to digest it.

Packers are making strenuous effort to force hide values to higher levels and the selling side of the market appears to have the situation well in hand. Country hides in desirable condition are

selling freely. The leather market is brisk, liquidation has been practically completed and now that a condition has been reached where the monthly take-off has an immediate outlet the prospect for further improvement in values is excellent.

Bert Way of Concord was in the city yesterday.

Sylvia Jackson, one of those arrested, turned state's evidence which led to De Long's arrest. De Long, the proprietor of a laundry, was placed under \$3,000 bond to await a preliminary trial which had been set for today.

**TREND OF PRICES
WAS UNCERTAIN**
By Associated Press.
NEW YORK, Dec. 9.—Further
pronounced diminution of deal-
ings in stocks and bonds marked
today's session of the stock ex-
change, although money rates eased
and most other developments
were on a favorable character.
The trend of prices was uncer-
tain in the first half of the ses-
sion, demand and supply being
equally divided but short cover-
ing resulted in a firm close.
Stels, equipments, coppers and
oils represented the more stable
issues, while motors, shippings,
secondary rails and foods and to-
bacco specialties yielded to pres-
sure. Sales amounted to 575,000
shares.
The money market reversed its
course of the previous day, the
5 1/2 per cent opening rate for call
loans easing to 5 per cent at
midday. Time funds also relaxed,
more 30 and 60 day loans being
made at 4 1/2 per cent.
Foreign exchanges forfeited
part of their buoyant advance,
Sterling reacting almost 1c from
yesterday's higher with declines
of 3 to 10 points in most other
allied remittances.
Victory notes were the only
United States war flotations to
show gains at the close of the
session. All Liberty issues gave
way to further profit taking. To-
tal sales (par value) aggregated
\$16,500,000.

**EUROPEAN BUYING
ON LARGE SCALE**
By Associated Press.
CHICAGO, Dec. 9.—European
buying on a large scale, altho de-
voted mostly to Canadian offer-
ings, had a bullish influence to-
day on the wheat market here.
Prices closed firm, 3 to 1 1/2c net
higher with May \$1.15 to \$1.15 1/2
and July \$1.03 1/2 to \$1.03 3/4. Corn
finished 1/2c off to a shade advance
and oats unchanged to 1/2c lower.
In provisions the outcome varied
from 5c decline to a gain of 20c.
Estimates of the amount of
wheat bought for Europe today
ran above 1,500,000 bushels and
gossip was current that there had
been a resumption of orders from
Germany. It was said that one
exporter had alone received seven
cable messages from Germany ask-
ing for offers or bidding for
wheat, corn or rye.
Erroneous reports that Ger-
many has been granted a mora-
torium counted also at times as a
stimulus to bullish settlement and
tended to make pit shorts run to
cover, especially near the end of
the session.
Earlier, however, upturns in
prices led to much profit taking by
longs.
The chief factor which induced
a willingness to realize on hogs
was knowledge that receipts at
Minneapolis and Kansas City to-
day appeared sufficient to assure
at least for the present a plentiful
supply to domestic consumers.
Corn and oats were steadied by
the relative firmness of wheat.
Besides export demand for corn
continued on a fairly liberal
scale.
Provisions averaged higher
with hogs.

NEW YORK, Dec. 9.—Brad-
street's tomorrow will say:
"The outstanding features in
the trade reports this week are
the signs of increased activity in
retail trade due to the stimulus
of holiday buying the country
over and the recurrence of sea-
son all weather in northern, east-
ern and western areas against
which is to be noted a further sea-

commitments pending this."
"Even in the matter of retail
buying, however, there are ir-
regularities visible, large depart-
ment stores advertising freely

do small retailers."
"As a whole holiday trade in
money value does not seem as yet

Passavant Hospital Has Plant in
Full Operation—Is Big Asset

The new laundry building at
Passavant hospital is now fully
equipped and is in operation. The
structure, which was put up dur-
ing the summer, was completely
outfitted with the necessary ma-
chinery last week by the Troy
Laundry company and was
turned over to the hospital com-
pletely installed and running.
The machinery is the most
modern on the market and is ar-
ranged in the most sanitary and
convenient way possible. The
building is 50x50x12, with long
casement windows that furnish
plenty of light and air.
The equipment includes two
washers, one large and one
small, an extractor that wrings
the clothes and linen by centri-
fugal force, a dry tumbler that
dries the laundry in a short time,
a flat ironer of the latest type,
with a 100-inch extension, used
for all sheets, blankets, etc., and
electric hand iron outfits, equip-
ped with pilot lights that show
if the iron is heating and a steam
starch cooker. Everything is
strictly sanitary, and as soon as
all of the fixtures are put in,
everything will be painted some
light color. The wall radiation
is yet to be installed and sev-
eral other conveniences are not, as
yet, complete.
The hospital authorities are
well satisfied with the improve-
ment and are sure that they will
mean a great saving. But of far
more importance than that, is the
sanitary aspect and the conveni-
ence which the new arrange-
ments afford.
They expect to open the laun-
dry building for inspection some
time during the holidays.
The hospital has been fortun-
ate in securing Ray Spillman as
superintendent. Mr. Spillman has
a large amount of experience in
laundry management and is well
qualified to take charge.

CLIO CIRCLE MEETS

MORGAN COUNTY INSTITUTE ENDS

Was One of the Largest Ever Held in County — Red Cross Worker Is Heard

Yesterday ended the Morgan County Teachers' Institute at the high school, one of the largest and most successful ever held in the county. Over 300 teachers attended the sessions during the two days of the institute. The principal speaker yesterday was Mr. Shyrock, of Southern Illinois Normal school at Carbondale.

In the morning, Mr. Shyrock dealt chiefly with a plea for more oral reading in the classes. He traced back thousands of years and conjectured what the first word might have been and brought out the fact that through the medium of the ear, more emotions are felt, more knowledge gained, and that the ear is the only organ that does not sleep.

In speaking of the advantages of reading, he told of the school in a certain locality that went to extremes in the matter. It was a rural school during that period when education, or oral reading, was beginning to delight the world. The people of this community became so enthused over the reading that no schoolmaster would be hired unless he was an expert reader. The result was that the school had a fine assortment of readers.

Oral Readers Win Prizes. Seven of these students went to high schools and in these schools, contests were held during an exhibition week. These included orations for the boys and essays for the girls. All of these seven students were among the winners, because of their reading. They had not had any training in grammar or composition, but through their application to the works of great men, they had familiarized themselves to a better degree with the language than the boys and girls of the schools where oral reading was not in so much practice.

In the afternoon he spoke of the perils and difficulties that a young teacher is liable to encounter. In speaking of these he remarked on the training aspect. There is just as much danger in too much training as in not enough. To illustrate his point, he told of the old Scottish idea, where one child of the family was given every chance to develop, at the expense of the rest. This developed a selfishness and disregard for others. Teachers must remain in sympathy with their students.

Red Cross Worker Talks. During the afternoon, the teachers were addressed by Miss Nina Streeter, director of the nutrition service of the central division of the American Red Cross. She talked on the "one hot meal a day" idea for the rural schools. In telling of the reasons for the hot lunches in the schools, she

stated that seven per cent of the students are under weight. They come to school hungry. They must bring lunches. A cold lunch is not very nourishing, and is hard on the morale of the school.

The hot lunches can be arranged very easily by forming a hot lunch club in the school, with certain members for each day. Each person can bring so much in materials for the lunches, and be given credit for that amount of lunches. In many cases women's clubs or parent-teacher associations furnish the food.

It has been proven that in the schools where the hot lunches are served, the morale, health, attendance, interest and discipline of the school are better.

In Illinois, seventy-nine of the counties of the state, are giving the teachers credit toward a renewal of their certificates for supervising these lunches. Morgan county is one of these.

"Food for Health," is the slogan of the nutrition service of the Red Cross.

PRESIDENT READ TALKS TO GRADUATES

Delivers Strong Address on the World's Progress and Yours—Tells Interestingly of the Progress of Man.

"The spirit of service and a desire to render it is necessary if one would attain personal success," President Harlan Eugene Read told the members of the graduating class of Brown's Business College in a forceful address at the commencement exercises last night.

In his address Mr. Read took for his subject "The World's Progress and Yours." He graphically depicted the progress of man from the beginning of civilization down to the present time. The speaker stressed that personal application and the necessity of starting early if one would make out of life the greatest success.

A large audience gathered in the auditorium of the new High school for the exercises and evinced keen interest in the address and other numbers of the program. The program opened with the playing of the national march by Misses Florence and Lucille Short while the members of the class marched in and took their places on the platform.

Rev. George E. Stiefney then offered the invocation and Principal G. C. Claybaugh made brief introductory remarks, expressing his pleasure at the large attendance. He then introduced Mr. Read who delivered the address to the class. Some of the speakers' thoughts are given:

Personal Application. Young ladies and gentlemen of the graduating class: The consideration of the mighty forces that are at work in the world will have little value for you if you fail to make a personal application of them to your own lives. You must study the past for its lessons and for this study there is practically only one avenue—good books.

You must enjoy the present and in order to do this you must realize that success refers not to the future but to the present. You are today in your hearts what you will be twenty years from now in your lives. The past is gone, the future never comes; the present moment is the only moment that you have. Success is, therefore, not a goal, but a process. You are successful if you are travelling in the right direction. If you are travelling toward the good, the beautiful, and the true, you are successful now. All your life is but a succession of present moments and there is no more evil thing in the world than the argument one makes to himself that he may do wrong or unwise now and make up for it tomorrow. The thing that is done now is the thing that counts. Success is a present thing. You cannot say "I will succeed tomorrow" for tomorrow is not yours. You can say "I am succeeding now," and if your compass is true it makes no difference how far you have travelled on the journey.

Plan to Render Service. Your personal success, however, cannot be attained until you have attained a high ideal of service, and a desire to render it. There must be workers. A universal cessation of work for seven days would cause universal starvation.

In its power to sustain life, labor is everything. Without it, nothing else is or can be of any importance.

In its power to enoble character, its calling is still higher. The world is befouled by those who will not work. It is glorified by men and women who toil. Forty years ago a boy was born in one of the small towns of the west. His parents were unable to send him to school past the fifth grade, and were compelled to put him to work at the age of eleven. He attended to his work faithfully by day. He studied by night. He earned more than his salary. He came to work five minutes early and left it half an hour late. He learned all he could about departments of the business in which he was not working. He earned a little and spent less. He kept a cool head and a clean eye by eating and sleeping regularly. He knew every morning what he was to do when evening came. When his salary was raised he lived on the same amount as before, and put the surplus in the bank. When he was promoted in position he stuck by his old friends, and made new ones by working harder than before. He never dodged a responsibility, but shouldered every burden in sight.

Today he is at the head of an immense establishment with thousands of men under his charge. He is earning more money than the president of the United States, and he is still improving and educating himself.

Do you ask, "Who is he?" He is the future of what you can be. He is in every farm house and every city residence in this great country. He is on every playground and in every workshop from ocean to ocean, if he wills it so. He is You, if you will today what you must be to make the man you wish to be tomorrow. He is You, if the morning gift of self-improvement and industry. He is You, if you are willing to pay the price of success in humble, patient effort. And to the young man or woman who says it is impossible, he is but the story of another's life, the dream of what will never be.

The Graduates. Following the graduation exercises a banquet was served at the Peacock Inn and an excellent program of songs was given.

HAVE NEW DEVICE FOR HEATING PLANT

Andre & Andre Install Oil Burning Device—Will Be Big Saving in Fuel

The firm of Andre & Andre have installed a new oil-burning device for the heating plant of the store. The oil burner is remarkably compact. The whole device occupies about one square yard of floor space, and is located just in front of the furnace doors. The old steam-heating plant is used, the oil-burner furnishing the heat instead of the usual coal method.

The burner is fed oil from a large tank through an ordinary feed pipe. The oil is sucked up through a carburetor by a powerful fan, and is then blown through a pipe in a fine spray, which is ignited as it leaves the pipe. A small gas pilot light is used to start the oil flame. The amount of heat desired is regulated by a throttle which increases or decreases the amount of oil flowing into the carburetor.

The oil used is crude oil, a little lighter than that used for road work, costs now eight cents a gallon. Mr. Andre estimates the supply needed for a week at 200 gallons. The saving in fuel expense, and better service, together with the cleanliness and convenience of the burner, clearly demonstrates the advantages of the burner.

CLUBS AND SOCIETY

Mr. and Mrs. E. J. Henderson Are Given Surprise.

Mr. and Mrs. E. J. Henderson were guests of honor at a surprise celebration at the home of Mr. and Mrs. E. A. Litter on North Church street, Friday evening, as Friday was their twentieth wedding anniversary. They were invited down to Litters for "a game of cards," and found, to their astonishment, eight couples of their friends waiting for them. Dancing and cards were the order of the evening. An elaborate supper was served during the evening. Mr. and Mrs. Henderson are well liked in this community, where they have spent many years. Their home was formerly in Litterberry.

The guests included Mr. and Mrs. Durrell Cum, Mr. and Mrs. Owen Crum, Mr. and Mrs. J. E. Underbrink, Frank Dinsdale, Miss May Martin, all of Litterberry; M. and Mrs. Barley Jones, Mr. and Mrs. Reaugh Jennings, Mr. and Mrs. Yordling and Miss Mildred Brown of Jacksonville.

Chaminade Club Gave Program.

The Chaminade Musical club gave a special program at the Old Peoples' home on Grove street, Friday afternoon at 2 o'clock.

BROTHERHOOD HELD EVENING MEETING

Men of Westminster Heard Interesting Address on Overseas Experiences of Col. Smith—An Appeal for Ex-Service Men—Duty, Work Discussed.

The Men's Brotherhood of Westminster church held a meeting Friday night with about 30 members and a few guests present. Following the supper a very interesting address on overseas experiences was made by Col. O. C. Smith and Principal Shater of the Jacksonville high school spoke very briefly of boys' work. There were some added remarks by Dr. Smith.

Then after the informal program came a period of discussion relative to Brotherhood affairs, and some of the work that is planned for the coming months. Stanley I. Davis, president of the Brotherhood, presided.

The committee appointed to arrange for the supper included Henry Kamm, C. W. Taylor and Dr. Thomas Smith. It was the intention to have only very simple refreshments, but several of the women of the church decided it should be otherwise and very materially augmented the menu. As a result a splendid dinner was served. Those who assisted the regular committee in this unexpected and generous way were Mrs. Thomas Smith, Mrs. G. C. Guthrie, Mrs. D. P. Roy and Miss Jane Smith.

After Stanley I. Davis, president of the Brotherhood, had called the assemblage to order he asked Dr. Smith to introduce Col. O. C. Smith. Reference was made to the unusual record of Col. Smith in the overseas service. The speaker mentioned the disarmament conference now being held in Washington and then in an informal way told something of his experiences and observations in Europe.

In a very entertaining way Col. Smith told something of the feeling of men under fire and sketched briefly the way the news of the signing of the armistice was received. The speaker closed with an appeal for fair treatment of ex-service men, and said that it is a blot upon the good name of America that too many thousands of former soldiers are now tramping the streets of the larger cities looking for employment.

He said he personally knew of many young men who entered the service and returned to find themselves without jobs or unable to secure positions as good as they left when they entered the war. Col. Smith does not take any stock in the theory that the United States entered the war to save democracy and believes that the greatest reason was the necessity of saving the United States.

DEAN CLARK SPEAKS AT ILLINOIS COLLEGE

University of Illinois Faculty Member Talks on "The Use of Time"—Is Advocate of Athletics.

Dean Thomas Arkle Clark of the University of Illinois addressed the students and faculty of Illinois College Friday morning on "The Use of Time."

He recommended three or four hours of old fashioned study on the subjects which they came to learn, during their out of class hours. The habit of physical exercise was strongly advocated by Dean Clark. He warned them that in twenty-five years they will have double chin and the street car will have to come to a full stop to let them off, if they fail now to build up their bodies.

Recreation, social affairs, should take part of the time, he said, but a college man has no time for love affairs. A girl is usually less upset by them. The fourth time Clark on his schedule was reading. Dean Clark urged division of time for regular use.

Prof. J. T. Dorris, principal of Waverly high school was another visitor at chapel Friday morning, and was introduced to the students.

The board of trustees of the college will meet Tuesday with

president Rammelkamp for luncheon and the business of the semi-annual meeting.
